CERTIFICATION

1: Full stack web development, Entri Elevate : Completed a rigorous 6-month course focused on mastering MERN stack principles and advanced concepts.

PROFESSIONAL SUMMARY

Seeking to leverage diverse technical skills and programming expertise in a dynamic Full Stack Developer role. Eager to contribute innovative solutions to complex challenges in software development, while continuously expanding knowledge of cutting-edge technologies. Committed to delivering high-quality, scalable applications that drive business success and user satisfaction.

PROJECTS

Healthy Weight Calculator |  | 

May 2024

- Description: This tool empowers individuals on their wellness journey by providing accurate and personalized insights into achieving a healthy weight. We can calculate the Body mass index(BMI) and the healthy weight range of an individual.
- Technologies: React, CSS

E-commerce Website |  | 

April 2024

- Description: The e-commerce website offers a seamless shopping experience with a sleek, responsive design powered by the MERN stack. Featuring advanced search and filtering, a dynamic shopping cart, and secure Stripe payment integration, it ensures quick, easy, and safe transactions. The robust admin panel allows for efficient product and order management, making it a powerful solution for both customers and administrators.
- Technologies: React, ExpressJS, MongoDB
